BASEMENT PLAN

The Huntington II is a classic Country French inspired new custom home to be built in the Charlottesville in-town community of Proffit Ridge. The approach is fantastic, offering great set back with classic stone and stucco detailing to offset the gorgeous front door. A rare find, offering 5 bedroom suites, two of which are master suites, one on each level.

This luxurious all-suite residence will feature exclusive interior appointments such as 3 levels of 9 foot ceilings, hardwood flooring on 1st and 2nd level, ceramic tile & cast iron tub/shower in all 5 bathrooms, two laundry rooms, formal living room with coffered ceiling, spectacular wall of triple French doors in family room with panoramic views and a custom trim package that will not disappoint.

Dominion Development is a builder of new homes that has years of experience employing Energy Star and EarthCraft practices which result in our homeowners enjoying energy efficient, healthy & safe homes for years to come.

Please call John Kerber at (434)975-1166 for more information on this home, or contact Dominion Development to learn more about The Huntington II.
